

Nurdle Patrol Year 4 Quarter 3 Report (December 1, 2023 – February 29, 2024)

PI: Katie Swanson

March 12, 2024

Administration:

Contract Activity

- The Nurdle Patrol Expansion, Education, and Outreach was approved for funding for Year 4 on June 1, 2023.
- The Subaward Agreement No. 3 UTA20-000902 between The University of Texas Marine Science Institute (UTMSI) and Texas A&M University Corpus Christi (TAMU-CC) was fully funded for year four for the amount of \$37,269.00 to further enhance the website for usability and the ongoing maintenance of the phone app to help promote the awareness and education of Nurdle Patrol.
- Jace Tunnell moved to TAMU-CC in early August 2023, and Katie Swanson took over as PI on the project. A Subaward Agreement between UTMSI and TAMU-CC for Jace Tunnell to continue working on expanding the Nurdle Patrol project was finalized on October 4th, 2023.

Risks and Impacts: None

Project Tasks:

Hire full-time staff to organize annual meeting, training, travel, manage website and develop promotional materials about Nurdle patrol.

Tracy Weatherall was hired during the first quarter of year one on July 1, 2020. Her contract was renewed on June 1, 2021, for year two, June 1, 2022, for year three and June 1, 2023 for year four.

Host the Texas Plastic Pollution Symposium (TPPS)

The 6th Annual Texas Plastic Pollution Symposium planning committee met 3 times during the third quarter to plan the 2024 symposium logistics in the Corpus Christi area.

It was decided that the event will be held at TAMU-CC on March 21st, 2024 and an evening social event will take place on March 20th, 2024 at the Executive Surf Club. The Save the Date was posted in late November and a call for abstracts and registration opening was sent out via email on January 3rd, 2024. A total of 41 abstracts were submitted by the cut-off date of March 4th, 2024. There will be 18 oral and 23 poster presentations.

Student Scholarships

As an incentive to attract students to attend the annual TPPS in person and present their research at the TPPS, we plan to offer a \$500 stipend to cover costs for travel and expenses again for year four. Thirty-one students submitted abstracts, 8 oral presentations and 22 poster presentations (1 poster has 2 co-authors). Eleven of these students are travelling over 50 miles to attend and present their research and will receive the \$500 stipend. Additionally, student presentation awards will be given again this year, sponsored by the Coastal Bend Bays & Estuaries Program. They are planning to give \$300

for oral presentations (\$150 1st place, \$100 2nd place, \$50 3rd place) and \$200 for poster presentations (\$100 1st place, \$75 2nd place, \$25 3rd place).

Create Starter and Teacher Kits

The Nurdle Patrol Starter Kit was created during the first year of Nurdle Patrol (2020) for organizations to start-up their own Nurdle Patrol Citizen Science Project or to incorporate nurdle surveys into their existing monitoring program. The kits were designed to supply organizations with resources needed to conduct surveys, talk to their volunteers about nurdles, and provide a foundation for a successful project (Figure 1). As of February 29th, 2024, 411 partners have received the starter kits.

The Nurdle Patrol Teacher Kits were also developed during the first year of Nurdle Patrol due to many requests from teachers across the United States that wanted to teach their students about how plastics reach the ocean and what negative impacts plastics have on the environment. These kits include a curriculum about nurdles entering the ocean, what negative impacts they can have, and what solutions are out there to prevent nurdles from getting into the waterways. The interactive teacher kits include six jars of nurdles, an information card about how to conduct a nurdle survey, a presentation all about nurdles, and articles describing the problem (Figure 1). An updated version of the teacher kit curriculum was completed during the third quarter of year 2 which includes an All Level Nurdle Survey, a Nurdle Hurdle Race, K-5 curriculum that includes lesson plans for age specific children in K-1, 2-3, and 4-5, and Middle School and High School Chemistry curriculums. These lesson plans are now linked to our webpage. As of February 29, 2024, 2,019 teacher kits were shipped to educators in the USA, Canada, Mexico, Puerto Rico, Costa Rica, Columbia, Cuba, UK, Spain, Africa, South Africa, Australia, Turkey, Italy, and Thailand. We estimate that each teacher would have 60 students, which means these kits could reach close to 120,960 students, making this an effective tool for educating students about plastics along the Gulf of Mexico and beyond.

Figure 1. Nurdle Patrol Startup Kit (left) and Teacher Nurdle Kit (right)

Plastic Free Life Kit

In January 2021, we initiated the Plastic Free Life Challenge. This friendly competition was designed as an incentive to encourage our partners and individuals to conduct as many nurdle surveys as possible each month. The group that conducts the most surveys will win a Plastic Free Life starter kit that includes 42 single-use plastic alternatives (Figure 2).

Figure 2. Plastic Free Life Starter Kit items.

Individual Kit

Individual Kits were created during the first quarter of year 3 to give individual citizen scientists everything they need to conduct a nurdle patrol survey on a regular basis. The kit includes a cotton zippered pouch with a Nurdle Patrol information card, a glass vial to hold the collected nurdles, a sticker and magnet (Figure 3).

Figure 3. Nurdle Patrol Individual Kit.

Meet with organizations about Nurdle Patrol – Outreach

During the third quarter of year 4, we acquired 22 new Nurdle Patrol partners and shipped 56 teacher kits (Figures 4-5; Table 1-4). Virtual and in-person presentations and meetings were given to promote Nurdle Patrol to organizations, including the following since June 1, 2023:

- June 7th– June 28th - Five Nurdle Patrol presentations were given to the Summer Science Sea Stars (Grades 3 – 4) and Tidal Waves (Grades 5-6) at UTMSI. Each participant received an individual kit and conducted simulated Nurdle Patrols.
- June 7, 2023 – Nurdle Patrol presentation to new partners in Portland, Maine. In-person presentation.
- June 13, 2023 – Nurdle Patrol presentation as invited speaker to the Texas Stormwater Conference held at the American Bank Center in Corpus Christi, Texas.
- July 11, 2023 – Nurdle Patrol presentation at the Bay Education Center in Rockport for lunch and learn seminar series.
- July 25, 2023 – Nurdle patrol presentation to Democratic Women of the Coastal Bend. In-person.
- August 1, 2023 – Nurdle patrol presentation to students in Ghana, Africa to create new partnerships across the globe.
- August 25, 2023 – Nurdle patrol presentation to the Friday Morning Group in Corpus Christi.
- September 6, 2023 – Nurdle patrol presentation in Washington, D.C. to the National Oceanic and Atmospheric Administration on Risks and Threats of nurdle spills.
- September 7, 2023 - Nurdle patrol presentation in Washington, D.C. to the National Oceanic and Atmospheric Administration on monitoring of nurdles.
- September 9, 2023 – Nurdle patrol presentation and Nurdle Patrol beach surveys with the Zachery Kolda Elementary School.
- September 13, 2023 – Nurdle patrol presentation to the Women’s International Shipping and Trade Association over Zoom.
- September 21, 2023 - Nurdle patrol presentation to the Texas General Land Office’s Clean Coast Texas group over Zoom.
- October 18, 2023 – Nurdle patrol presentation to the United Way of Corpus Christi board meeting in-person.
- October 31, 2023 - Nurdle patrol presentation and Nurdle Patrol beach surveys with Flour Bluff middle school’s Wetland Ambassador Program at North Padre Island beach.
- November 9, 2023 – Tracy Weatherall attended the STEAM (Science Technology Engineering Arts Mathematics) night at Kolda Elementary in Corpus Christi, Texas to assist our new nurdle patrol partner, Kolda Elementary-Coastal Cadet Club, inform students and their families about nurdles and the issues with marine debris and microplastics and their impact on the environment, animals and people.
- November 11, 2023 – Nurdle patrol presentation at the Corpus Christ Science Museum in person.
- December 4, 2023 – Nurdle patrol and environmental Issue of Plastics presentation for the Cub Scouts at the Windsor Park Elementary school.

- January 17, 2024 - Nurdle Patrol and Beachcombing the Gulf of Mexico presentation at HDR Engineering HQ.
- January 23, 2024 – Nurdle Patrol and Beachcombing the Gulf of Mexico presentation for the Flour Bluff Aquatic Science Class at Flour Bluff High School.
- February 8, 2024 – Beachcombing and Plastics presentation for Seashore Middle Academy Marine Science Class at Seashore Middle Academy.
- February 10, 2024 – Nurdle Patrol training at Mustang Island State Park for the Seashore Middle Academy Marine Science Class.
- February 12, 2024 – Nurdle Patrol and Beachcombing the Gulf of Mexico presentation at Del Mar CED.
- February 13, 2024 – Marine Debris and Nurdle Patrol in the Coastal Bend presentation at the Corpus Christi Science Museum.
- February 16, 2024 – Nurdle Patrol/Beachcombing and Public Engagement presentation for the Informal Science Education Association at the Texas State Aquarium.
- February 20, 2024 – Crowd Sourcing Plastic Pollution Data Throughout the United States and Beyond poster presentation at the GOMCON GOMA meeting in Tampa, Florida.
- February 20, 2024 – Nurdle Patrol expansion throughout Mexico presentation at the GomCon GOMA meeting in Tampa, Florida.
- February 20, 2024 – Science Viral Videos presentation at the GOMCON GOMA meeting in Tampa, Florida.
- February 21, 2021 – Nurdle Patrol and Beachcombing the Gulf of Mexico presentation at the GOMCON GOMA meeting in Tampa, Florida.
- February 24, 2024 – Nurdle Patrol and Beachcombing the Gulf of Mexico presentation at the Whooping Crane Festival in Port Aransas, Texas.
- February 27, Careers in Marine Science presentation at the Seashore Middle Academy.

The Nurdle Patrol Facebook group is being utilized as a way to communicate with individual citizen scientists as well as new organizations about new efforts related to Nurdle Patrol. News stories, survey results, and other related material are also shared with the more than 3,000 followers on the closed group Nurdle Patrol Facebook page. Also, the Nurdle Patrol Twitter account (public) was created to educate and inform the general public about plastic pollution and other science related topics. To date there are 984 followers.

Lisa Scobel, a graduate student studying Environmental Conservation from the University of Wisconsin-Madison, joined the Nurdle Patrol team this summer as an intern and recruited 14 new partners along the Mississippi River's 2,350 mile stretch as well as New York and Canada. In addition, she published 5 Nurdle Patrol related articles that are posted on the nurdlepatrol.org website at <https://nurdlepatrol.org/Forms/News/index.php>. Lisa started a position at the Galveston Bay Foundation in July 2022 as the marine debris coordinator and is helping to spread the word and sample in the Houston/Galveston area about Nurdle Patrol.

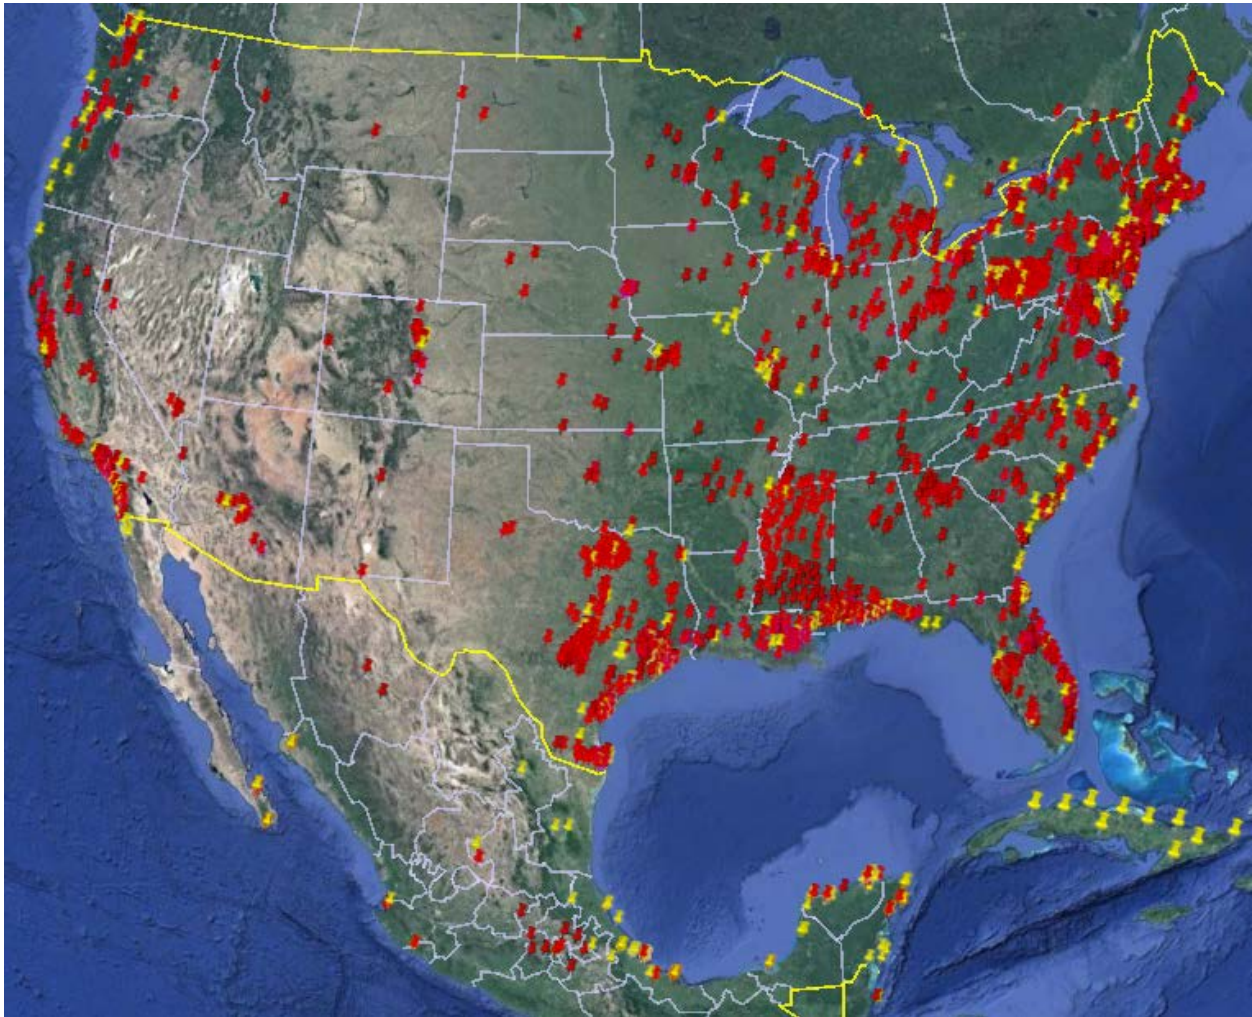

Figure 4. Nurdle Patrol Partners (yellow) and Teacher Kits (red) shipped in the continental United States, Canada, Cuba, Belize and Mexico.

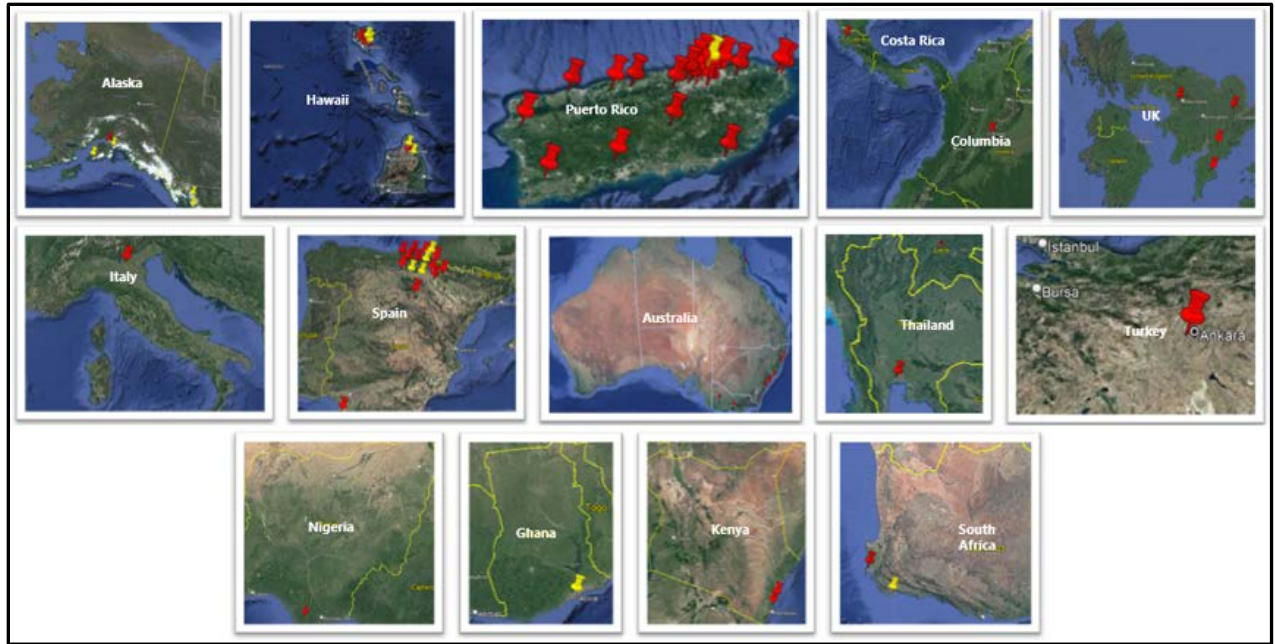

Figure 5. Nurdl Patrol Partners (yellow) and Teacher Kits (red) shipped to Alaska, Hawaii and worldwide.

Phone App Maintenance and update website

A contract was signed with TAMU-CC Conrad Blucher Institute (CBI) in July 2023. The work by CBI includes improvement to the phone app for Nurdle Patrol by adding all data onto a map, as well as updates to the Nurdle Patrol website (www.NurdlePatrol.org). Both versions of the original phone app, Android, and iOS, were released in May 2021.

For the first quarter of Year 4, CBI hired a graduate student to continue the development of the Nurdle Patrol website and mobile apps. The team has been working on the technical transfer for the student. The student has been able to set up and work on upgrading the software libraries for Nurdle iOS app and is working on Nurdle Android app. The newer iOS version (1.3.5) is in the testing phase.

During the second quarter, the development team completed the technical transfer process for the new research assistant and updated the point of contact (located at the bottom of the nurdlepatrol.org website) with the new email address (Jace.Tunnell@tamucc.edu). They also started working on a basic concept for the nurdle interactive animation for the website (Figure 6).

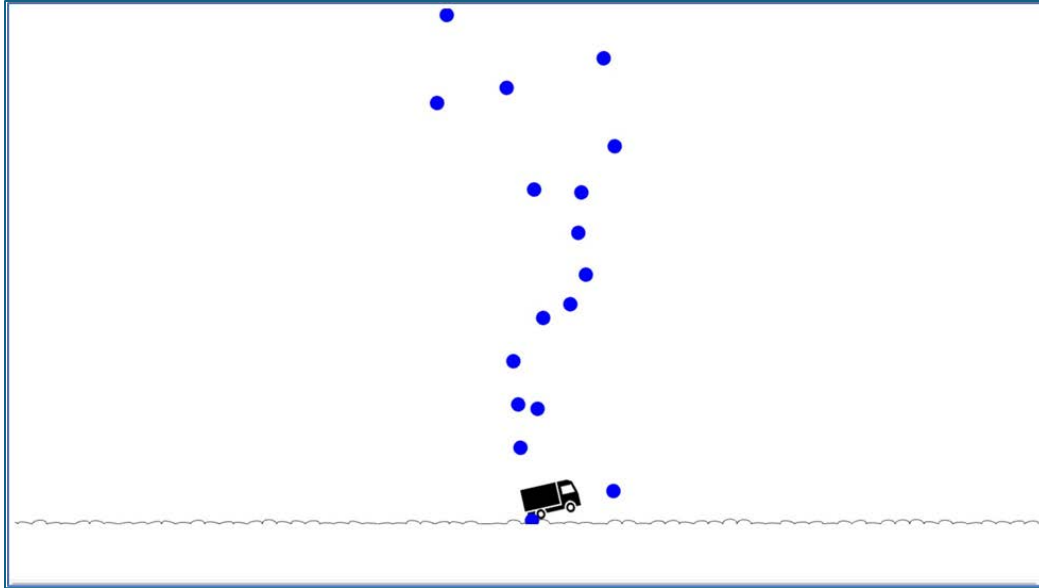

Figure 6. First prototype of the Nurdle interactive animation

For the third quarter of Year 4, the development team made progress on the nurdle interactive animation. The team asked volunteers to play the game and gathered feedback. There are several changes in latest version of the animation (Figure 7):

- Added colors and various sizes for the nurdles.
- Added more realistic graphics for the vehicle (trucks and ships).
- Shorten time to complete the animation.
- Added environmental health bar as additional game-over condition.
- Adjusted the way nurdles moving speed.
- Added counts to nurdle collected and nurdle uncollected.

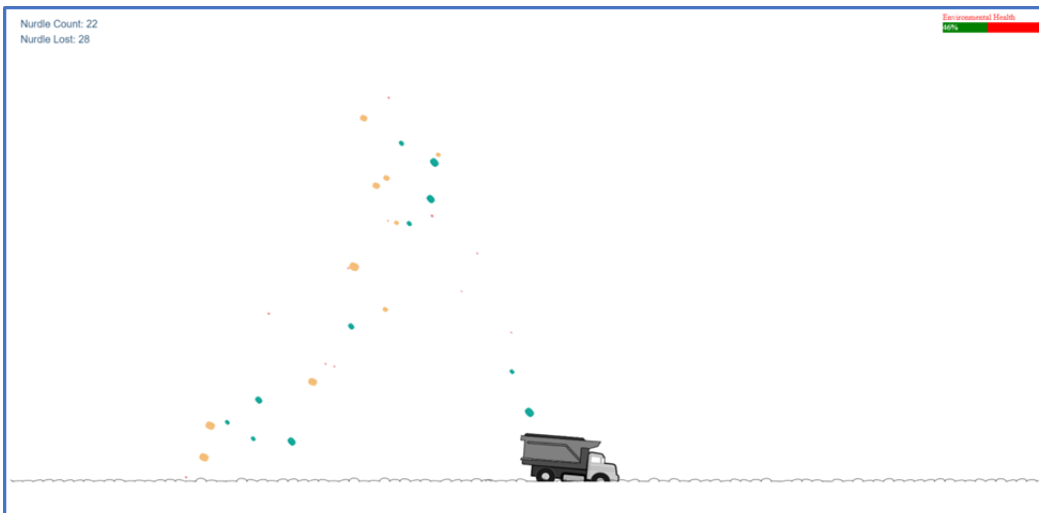

Figure 7. Nurdle interactive animation as of March 6, 2024.

Develop Educational and promotional videos

Videos produced from year 1 funding (2020) have been placed on the YouTube Channel that the Mission-Aransas Reserve maintains, as well as posting to various social media platforms, and added to the NurdlePatrol.org website. For year 2 (2021) funding, a four-part video series featuring Diane Wilson was produced and completed. The videos were shown at the Nurdle Patrol Film Festival on September 10, 2022. For year 3 (2022) a documentary of Nurdle Patrol's work in Mexico was produced and completed in April 2023.

Below is a list of the films shown at the Nurdle Patrol Film Festival on September 10, 2022.

1. Diane Bio: Diane's life growing up as a multigenerational shrimper, raising kids, living and working on the bay in Texas, and her passion with ensuring that environmental justice was being served. Towards the end of the video, Diane talks about the early days of knowing that Formosa was discharging plastic pellets into the waterways where she had raised her kids and fished for a living and knew that something had to be done.

2. Formosa Lawsuit: Diane describes the long battle with Formosa, taking samples daily for three years straight, making allies with whistle blowers that worked for Formosa, the dangers of working against Formosa in the community, and the lawsuit's ultimate decision. Diane discusses the key pieces of evidence that brought down Formosa, including utilizing Nurdle Patrol data as part of that effort.

3. Working with Nurdle Patrol: Diane and Jace talk about collecting nurdles at Formosa and at other plastic manufacturing sites, sending TCEQ complaints across the state to put nurdle releases from the many plastic manufacturing sites on the official record of the state, using the Formosa lawsuit funding to expand Nurdle Patrol efforts across the U.S., and the continued fight with Formosa. At the end they discuss "where do we go from here?".

4. Future: Where do we go from here? Diane and Jace talk about the Matagorda Bay Mitigation Trust, the \$50M in funding that was set up from the Formosa lawsuit consent decree that Diane established, what projects are being funded, where Nurdle Patrol is going in the future, and what Diane's future plans are. At the end of this video they discuss the future with plastic policy changes that have occurred in Texas and other states, federal efforts going on, and if there is going to be another series about the good things happening.

Public Awareness

The Nurdle Patrol rack card continues to be printed and describes how to conduct a Nurdle Survey on the front side and on the back side it has more detailed information including where to look for nurdles, what nurdles are, and a QR Code link to NurdlePatrol.org where a training video can be found. We created this card in English and Spanish (Figures 8 & 9).

Figure 8. Nurdle Patrol outreach flyer front and back.

Figure 9. Spanish version of the Nurdle Patrol outreach flyer front and back.

The billboard campaign was created during the first year (2020) of Nurdle Patrol and was a huge success and has been extended into the third year with one near the Formosa Point Comfort (site 355751) in February 2022 and will remain at this site until February 2025 (Figure 10).

Figure 10. Nurdle Patrol billboard campaign.

Nurdle Patrol is proud to have an outreach installation at the Texas State Aquarium (Figure 11). The Texas State Aquarium reached out to us in the summer of 2021 to request video footage, images of nurdles, and text on the impact of plastics in the environment. From the information we sent, the aquarium was able to create an exhibit with a video that plays continuously, and a poster display educating folks on what nurdles are, how they get into the environment, and solutions for reducing plastics getting into the ocean.

Figure 11. Nurdle Patrol outreach installation at the Texas State Aquarium.

Summary

A total of 546 surveys were conducted during the third quarter of Year 4 and 9,412 nurdles were removed from the beaches, riverbanks, and lake shorelines across the United States, Mexico and additional countries worldwide. Nurdlepatrol.org acquired 22 new partners and shipped 56 teacher kits to educators in the USA, Canada, Mexico, Puerto Rico, Costa Rica, Columbia, UK, Spain, Africa, Australia, Turkey, Italy, Spain and Thailand. Twenty-five individual kits were handed out during the second quarter (Table 6).

Y4Q3	Number of Surveys	Nurdles Removed	New Partners	Teacher Kits	Individual Kits
December	74	1,686	10	9	0
January	199	2,161	7	16	0
February	273	5,565	5	31	25
Total	546	9,412	22	56	25
