

Nurdle Patrol Year 3 Quarter 2 Progress Report (September 1, 2022 – November 30, 2022)

PI: Jace Tunnell
December 8, 2022

Administration:

Contract Activity

- The Nurdle Patrol Expansion, Education, and Outreach was approved for funding for Year 3 on June 1, 2022.
- The Subaward Agreement No. UTA20-000902 between The University of Texas at Austin and Texas A&M University Corpus Christi was fully funded for year three for the amount of \$35,825.00 to further enhance the website for usability and the ongoing maintenance of the phone app to help promote the awareness and education of Nurdle Patrol.

Risks and Impacts: None

Project Tasks:

Hire full-time staff to organize annual meeting, training, travel, manage website and develop promotional materials about Nurdle patrol.

Tracy Weatherall was hired during the first quarter of year one on July 1, 2020, June 1, 2021, for year two, and June 1, 2022, for year three.

Host the Texas Plastic Pollution Symposium (TPPS)

The 5th Annual Texas Plastic Pollution Symposium planning committee met 3 times during the second quarter to plan the symposium logistics in the Houston area in 2023. It was decided that the event will be held at the University of Houston at Clear Lake in Clear Lake, Texas on April 4-5, 2023. The Save the Date was posted in early November 2022 and the Call for Abstracts and Registration will take place on January 9th, 2023. On the first day, April 4th, there will be an optional fieldtrip and social gathering followed by the symposium on the second day.

Student Scholarships

As described in the consent decree, students that attend in person and present their research at the Texas Plastic Pollution Symposium will receive a \$500 stipend to cover costs for travel and expenses.

Create Starter and Teacher Kits

The Nurdle Patrol Starter Kit was created during the first year of Nurdle Patrol (2020) for organizations to start-up their own Nurdle Patrol citizen science project or to incorporate nurdle surveys into their existing monitoring program. The kits were designed to supply organizations with resources needed to conduct surveys, talk to their volunteers about nurdles, and provide a foundation for a successful project (Figure 1). As of November 30,

2022, two hundred and thirty-five partners have received the starter kits. Included in this number are five kits that were delivered to Cuba in November by one of our partners (Harte Research Institute) conducting coral reef research. We are excited that we'll get very important nurdle datapoints along the shorelines of Cuba.

The Nurdle Patrol Teacher Kits were also developed during the first year of Nurdle Patrol due to many requests from teachers across the United States that wanted to teach their students about how plastics reach the ocean and what negative impacts plastics have on the environment. These kits include a curriculum about nurdles entering the ocean, what negative impacts there are, and what solutions are out there to prevent nurdles from getting into the waterways. The interactive teacher kits include six jars of nurdles, information card about how to conduct a nurdle survey, a presentation all about nurdles, and articles describing the problem (Figure 1). An updated version of the teacher kit curriculum was completed during the third quarter which includes an All Level Nurdle Survey, a Nurdle Hurdle Race, K-5 curriculum that includes lesson plans for age specific children in K-1, 2-3, and 4-5, and Middle School and High School Chemistry curriculums. These lesson plans are now linked to our webpage. As of the end of the second quarter of year three, 1,544 teacher kits have been shipped to educators in the USA, Canada, Mexico, Puerto Rico, Costa Rica, Columbia, Cuba, UK, Spain, Africa, Australia, Turkey, Italy and Thailand. In October we shipped teacher kits to all 82 county clerks in Mississippi which have educational programs for students of all ages. We estimate that each teacher would have 60 students, which means these kits could reach close to 5,000 students, making this an effective tool for educating students about plastics along the Gulf of Mexico.

Figure 1. Nurdle Patrol Startup Kit (left) and Teacher Nurdle Kit (right).

Plastic Free Life Kit

In January 2021, we initiated the Plastic Free Life Challenge. This friendly competition was designed as an incentive to encourage our partners and individuals to conduct as many nurdle surveys as possible each month. The group that conducts the most surveys will win a Plastic Free Life starter kit that includes 42 single-use plastic alternatives (Figure 2).

- June 7, 2022 – Nurdle presentation to the San Antonio River Authority via Zoom.
- June 8, 2022 – Summer Science Program nurdle presentation at UTMSI.
- June 9, 2022 – Nurdle presentation to teachers in central Texas via Zoom.
- July 11, 2022 – Nurdle presentation virtual to a Pennsylvania program called Pesky Plastics with students interested in environmental issues.
- July 13, 2022 – Virtual nurdle presentation to the Houston Canoe Club.
- July 30, 2022 – Invited speaker to the Youth Climate Summit to talk about Nurdle Patrol via Zoom.
- August 13, 2022 – Updated the UT Marine Advisory Council about Nurdle Patrol efforts across Texas.
- August 20, 2022 – Presentation in-person in Port Lavaca at the Calhoun County Environmental Forum.
- September 10, 2022 – Hosted a Nurdle Patrol Film Festival at UTMSI with Diane Wilson as the invited speaker. Showed all 4 videos of Diane Wilson that were produced by Nurdle Patrol. Over 100 attendees.
- September 14, 2022 – 18 Flour Bluff 6th grade students in an Oceans Class met at the beach at Bob Hall Pier to hear about Nurdle Patrol and conduct nurdles surveys.
- September 17, 2022 – Presentation to Adopt a Beach Cleanup volunteers on North Padre Island.
- September 28, 2022 – Presentation in Spanish at the Mexico Plastic Pollution Symposium in Veracruz Mexico.
- October 5, 2022 – Presentation to students at the University of Pittsburg through Zoom.
- November 3, 2022 – Tracy Weatherall attended the STEAM (Science Technology Engineering Arts Mathematics) night at Kolda Elementary in Corpus Christi, Texas to inform students and their families about nurdles and the issues with marine debris and microplastics and their impact on the environment, animals and people.

The Nurdle Patrol Facebook group is being utilized as a way to communicate with individual citizen scientists as well as new organizations about new efforts related to Nurdle Patrol. News stories, survey results, and other related material are also shared with the more than 2,900+ followers on the closed group Nurdle Patrol Facebook page. Also, the Nurdle Patrol Twitter account (public) was created to educate and inform the general public about plastic pollution and other science related topics. To date there are 465 followers.

Lisa Scobel, a graduate student studying Environmental Conservation from the University of Wisconsin-Madison, joined the Nurdle Patrol team this summer as an intern and recruited 14 new partners along the Mississippi River's 2,350 mile stretch as well as New York and Canada. In addition, she published 5 Nurdle Patrol related articles that are posted on the nurdlepatrol.org website at <https://nurdlepatrol.org/Forms/News/index.php>. Lisa started a position at the Galveston Bay Foundation in July 2022 as the marine debris coordinator and is helping to spread the word and sample in the Houston/Galveston area about Nurdle Patrol.

Phone App Maintenance and update website

A contract was signed with Texas A&M University-Corpus Christi Conrad Blucher Institute (CBI) in July 2022. The work by CBI includes improvement to the phone app for Nurdle Patrol by adding all data onto a map, as well as updates to the Nurdle Patrol website (www.NurdlePatrol.org). Both versions of the phone app, Android, and iOS, were released in May 2021. The app is being downloaded and utilized by citizen scientists. During the first quarter of year 3 the development team conducted research and implemented the new geospatial query tool for the map page (Figures 6 and 7). Users are able to draw a rectangle or a polygon on the Map page to query the Patrol for an area of choice. Also, the user is able to view, download, search for a list of patrols in the selected area. Supported files format for data export are csv, excel, and pdf.

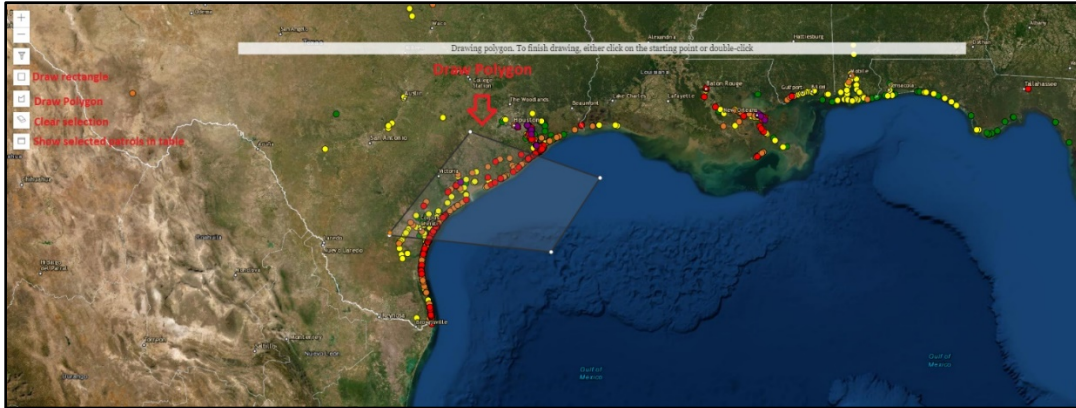

Figure 6. Drawing Polygon using Geospatial search tool.

Figure 7. Users will be able to view, download, search on a list of patrols in the selected area.

During the second quarter of year three the development team worked on the following:

- Added new URL support to article’s links.
- Added Share on Facebook button on articles.
- Admin functionality for the banner feature.
- Displaying the banner in home page.

They added URL support to article’s links (Figure 8), so users will be redirected to selected URL from a mouse click. The development team also added the “Share” button for Facebook below the article’s title on the Article page. This functionality allows Facebook to read the dynamic content from the article page since copy-and-paste link to Facebook’s New Feed is no longer working with Nurdle Patrol’s website.

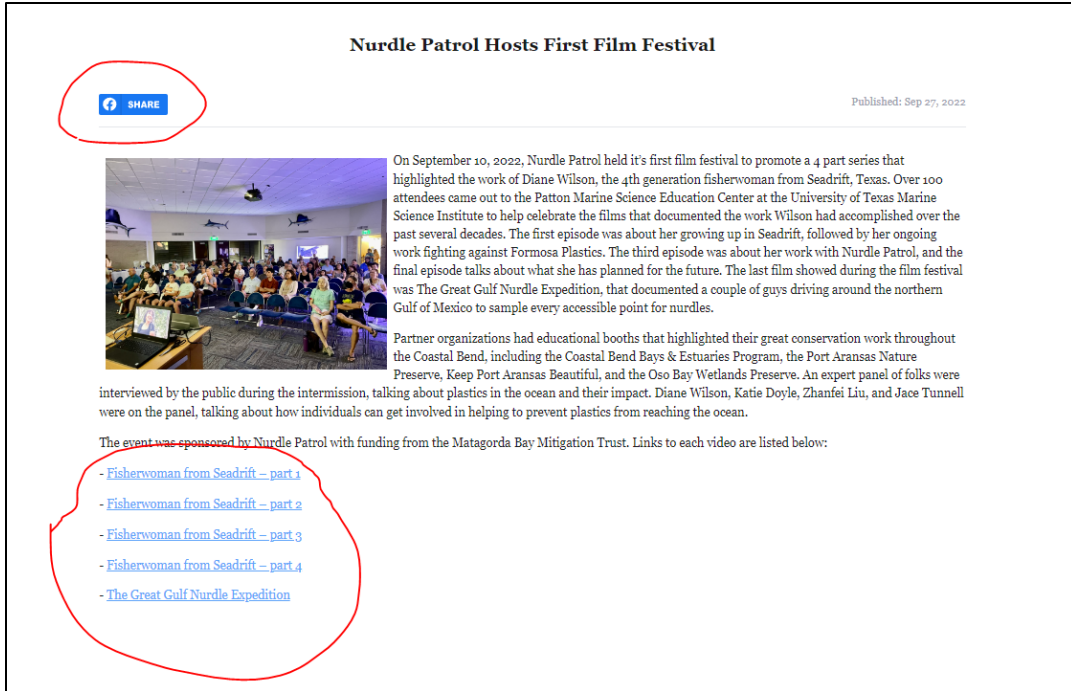

Figure 8. URL support and Facebook Share button on Article page

They also have been focusing on creating the banner announcement feature. The admin banner announcement consists of 2 parts: The table view of active announcements (Figure 9) and the Edit Announcement popup (Figure 10). During the third quarter the design team will work on displaying the announcement banner in the home page and testing the completed announcement banner feature.

Develop Educational and promotional videos

Videos produced from year 1 funding (2020) have been placed on the YouTube Channel that the Mission-Aransas Reserve maintains, as well as posting to various social media platforms, and added to the NurdlePatrol.org website. For year 2 (2021) funding, a four-part video series featuring Diane Wilson was produced and completed. The videos were shown at the Nurdle Patrol Film Festival on September 10, 2022.

1. Diane Bio: Diane's life growing up as a multigenerational shrimper, raising kids, living and working on the bay in Texas, and her passion with ensuring that environmental justice was being served. Towards the end of the video, Diane talks about the early days of knowing that Formosa was discharging plastic pellets into the waterways where she had raised her kids and fished for a living and knew that something had to be done.
2. Formosa Lawsuit: Diane describes the long battle with Formosa, taking samples daily for three years straight, making allies with whistle blowers that worked for Formosa, the dangers of working against Formosa in the community, and the lawsuit's ultimate decision. Diane discusses the key pieces of evidence that brought down Formosa, including utilizing Nurdle Patrol data as part of that effort.
3. Working with Nurdle Patrol: Diane and Jace talk about collecting nurdles at Formosa and at other plastic manufacturing sites, sending TCEQ complaints across the state to put nurdle releases from the many plastic manufacturing sites on the official record of the

state, using the Formosa lawsuit funding to expand Nurdle Patrol efforts across the U.S., and the continued fight with Formosa. At the end they discuss "where do we go from here?".

4. Future: Where do we go from here? Diane and Jace talk about the Matagorda Bay Mitigation Trust, the \$50M in funding that was set up from the Formosa lawsuit consent decree that Diane established, what projects are being funded, where Nurdle Patrol is going in the future, and what Diane's future plans are. At the end of this video they discuss the future with plastic policy changes that have occurred in Texas and other states, federal efforts going on, and if there is going to be another series about the good things happening.

Public Awareness

In year 1 (2020) we created a Nurdle Patrol rack card that describes how to conduct a Nurdle Survey on the front side and on the back side it has more detailed information including where to look for nurdles, what nurdles are, and a QR Code link to NurdlePatrol.org where a training video can be found. We created this card in English and Spanish (Figures 11 & 12).

Figure 11. Nurdle Patrol outreach flyer front and back.

Figure 12. Spanish version of the Nurdle Patrol outreach flyer front and back.

The billboard campaign was created during the first year (2020) of Nurdle Patrol and was a huge success and has been extended for the second year. One billboard was installed in

August 2021 in Portland, Texas near the Gulf Coast Growth Ventures plastics plant that is being constructed, and the second billboard was installed in Point Comfort (site 355751) in February 2022 (Figure 13). Currently, as of August 2022, there is a billboard at the Point Comfort site.

Figure 13. Nurdle Patrol billboard campaign.

Nurdle Patrol is proud to have an outreach installation at the Texas State Aquarium (Figure 14). The Texas State Aquarium reached out to us in the summer of 2021 to request video footage, images of nurdles, and text on the impact of plastics in the environment. From the information we sent, the aquarium was able to create an exhibit with a video that plays continuously, and a poster display educating folks on what nurdles are, how they get into the environment, and solutions for reducing plastics getting into the ocean. As of September 2022, the exhibit is still running strong.

Figure 14. Nurdle Patrol outreach installation at the Texas State Aquarium.

Summary

A total of 1,077 surveys were conducted during the [second quarter of Year 3](#) and 59,726 nurdles were removed from the beaches, riverbanks, and lake shorelines across the United States, Mexico and several additional countries around the world. Nurdlepatrol.org acquired 37 new partners and shipped 255 teacher kits to educators in the USA, Canada, Mexico, Puerto Rico, Costa Rica, Columbia, UK, Spain, Africa, Australia, Turkey, Italy and Thailand. One hundred seventy-one individual kits were given to participants at the Texas Bays and Estuaries Meeting in September 2022 (Table 4).

Y3Q2	Number of Surveys	Nurdles Removed	New Partners	Teacher Kits	Individual Kits
September	398	21,342	13	74	170
October	497	34,805	14	153	0
November	182	3,579	10	28	1
Total	1,077	59,726	37	255	171

Table 4: Y3Q2 Progress Report Summary.

Obstacles

Currently there are no obstacles to report.
