

Thank you so much for supporting our Aquaculture Bootcamp! Because of your generosity, we had an amazing opportunity to learn about aquaculture, marine science, and the many careers that help protect and sustain our coastal resources. We learned that healthy bays and sustainable seafood are important for our communities and future. Thank you for giving us the chance to learn, explore, and grow. We are truly grateful for this experience and will always remember the opportunities you made possible. - The 2026 class
